# The Academic Collocation List

## Classroom Resource for PTE Preparation

## Why collocations matter

Collocations, words that commonly occur together, are a natural and essential part of English. Acquiring collocations is a key step in improving overall English proficiency.

## About the Academic Collocation List

Created by Pearson, the Academic Collocation List contains the most frequent and pedagogically relevant lexical collocations in written academic English, helping learners recognize and use words that naturally co-occur rather than studying words in isolation.

- **Number of collocations:** 2,469
- **Source:** Pearson International Corpus of Academic English (25 mill words)
- **Purpose:** to support PTE preparation

## Benefits and use

In highlighting the most important cross-disciplinary collocations, the Academic Collocation List can help learners increase their collocational competence and thus their proficiency in academic English.

The Academic Collocation List can also support PTE teachers in their lesson planning and serve as a tool for improving academic language development in their learners.

# How to use the Academic Collocation List

The Academic Collocation List can be used in the classroom to help learners **notice**, **record**, and **use collocations** effectively across PTE questions:

## Understand collocations

- ③ Introduce learners to common word combinations (e.g., verb + noun, adjective + noun, and noun + noun) to improve natural language use.

**Example:** Provide examples of collocations from the Academic Collocation List.

verb + noun	adjective + noun	noun + noun
have access (to)	hierarchical structure	information flow
have consequences		information gathering
have limitations		information processing

## Record and learn

- ③ Encourage learners to notice collocations in sample prompts (texts or audio), record them in notebooks or digital logs, and review them regularly.

**Example:** Learners notice the collocation *prime example*. They then go to the Academic Collocation List to find other collocations with *prime*, such as *prime time*.

## Extend vocabulary

- ③ Use collocations as a springboard to related words and phrases, broadening learners' academic vocabulary.

**Example:** Starting with a collocation from the Academic Collocation List, such as *conduct research*, learners can explore related academic expressions like *carry out a study*, *investigate*, or *analyze data*.

## Use in PTE Speaking & Writing questions

- ② Encourage learners to actively include collocations in responses to PTE Speaking & Writing questions, improving range and precision.

**Example:** For a Describe Image question showing a rising bar chart of population growth:

1. The teacher selects collocations from the Academic Collocation List, for example, *significant growth* and *reach (a) peak*.
2. Learners are asked to incorporate these collocations into their descriptions of the image.

**Sample learner response:** “The chart shows that the population has experienced *significant growth* over the last decade, *reaching a peak* in 2020.”

## Use in PTE Reading & Listening questions

- ② Encourage learners to recognize and apply collocations accurately to improve comprehension and maximize their scores.

**Example:** For Fill in the Blanks (Dropdown) or Fill in the Blanks (Drag and Drop) question, learners should use the Academic Collocation List to identify the most appropriate collocation for each gap. They can also use the Academic Collocation List to find alternative words that naturally collocate with the missing word or one of the answer options, ensuring that all choices sound authentic and contextually appropriate.

## Reinforce through practice

- ② Incorporate collocations into classroom activities such as gap-fills, matching exercises, and quizzes.

**Example:**

1. The teacher selects collocations from the Academic Collocation List to design a matching exercise.

verb	noun
take	aware
make	responsibility
become	arrangements

2. Learners complete the matching exercise (e.g., *take responsibility, make arrangements, become aware*), then refer to the Academic Collocation List to explore additional collocations for each verb.
